About Me

Born in '02, I have been playing around with computers ever since I started talking. Went from figuring out how to play games with my friends on the same server, to automating different processes for events & organizations.

Personal Projects

- Volat - contract generation web app Django & Bootstrap
- Matt's Workout - workout showcase using basic Bootstrap
- Basic To Do - to do app using JS
- ROVIDCounty - app showing covid cases using JS, Chart.js and Leaflet.js
